Atty. Docket No. WRAIR99-54 04
Appl. No. 10/082,132

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : HOXIE et al.

Serial No. : 10/082,132

Examiner: not yet assigned

Filed : February 26, 2002

Group Art Unit: 2166

For : BROWSER FOR AN ACCIDENT AND INCIDENT REGISTRY

PRELIMINARY AMENDMENT

Assistant Commissioner of Patents
Washington, D.C. 20231

Sir:

Prior to examination on the merits, please amend this application as follows:

IN THE CLAIMS:

Please cancel claims 21-27 without prejudice. Please amend claims 4 and 10 as follows:

4. (Amended) The data structure according to claim 1, further comprising a bibliography table containing a corresponding entry for each entry in said incident table linked by said identification, said bibliography table containing bibliographic information for the incident corresponding to said identification.

10. (Amended) A method for performing a search in a laser accident and incident registry database comprising:

receiving a search request,

displaying a radio button interface listing categories,

receiving a selection of a category listed on the radio button interface,

displaying an interface having multiple fields for accepting search criteria,

receiving search criteria,
suggesting a query name,
sending the search criteria to another component,
receiving a list of matches that satisfy the search criteria from the other
component, and
displaying the list; and
wherein the categories include an identifier, overview and analysis, subject,
clinical evaluation, visual function exam, laser system, treatments, safety, exposure,
and bibliography.

Please add new claims 36-42 as follows:

36. (New) The method of claim 15, further comprising:

receiving a request to provide a synopsis for the list contents,
detecting a pointer on an item among the list contents, and
displaying a synopsis associated with the item.

37. (New) The method of claim 17, further comprising:

receiving a request to provide a synopsis for the list contents,
detecting a pointer on an item among the list contents, and
displaying a synopsis associated with the item.

38. (New) The method of claim 15, further comprising:

receiving a search request,
displaying a radio button interface listing categories,
receiving a selection of a category listed on the radio button interface,

displaying an interface having multiple fields for accepting search criteria,
receiving search criteria,
suggesting a query name,
sending the search criteria to another component,
receiving a list of matches that satisfy the search criteria from the other
component, and
displaying the list.

39. (New) The method according to claim 38, further comprising receiving a
save instruction and saving the query for later retrieval.

40. (New) The method according to claim 39, further comprising expanding
the list to include a additional levels of information when an item is selected.

41. (New) A computer-readable medium containing a data structure for storing
laser accident and incident information comprising:

an incident table containing an entry for each of a plurality of incidents, each
entry carrying an identification,

a clinical evaluation table containing at least one entry for at least one entry in
said incident table linked by said identification, said clinical evaluation table containing
clinical evaluation information, and

a laser table containing at least one entry for at least one entry in said incident
table linked by said identification, said laser table containing a laser identification.

42. (New) The data structure according to claim 41, wherein said incident
table includes a summary section and an exposure section.

REMARKS

This Preliminary Amendment is being filed concurrently with a response to the Notice of Missing Parts.

Attached hereto is a marked-up version of the changes made to claims 4 and 10 by the current Preliminary Amendment. The attached page is captioned "Version with markings to show changes made." New claims 36-42 have not been included on the attached page, because the claims are new.

Claim 4 was amended to insert a missing "," in the preamble of that claim. Claim 10 was amended to more completely claim an aspect of the invention and to change both occurrences of "radial" to --radio--.

Applicants respectfully submit that all of the claims of this application are patentable. Examination on the merits is awaited.

Respectfully submitted,
CAHN & SAMUELS, L.L.P.

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the claims:

4. (Amended) The data structure according to claim 1, further comprising a bibliography table containing a corresponding entry for each entry in said incident table linked by said identification, said bibliography table containing bibliographic information for the incident corresponding to said identification.

10. (Amended) A method for performing a search in a laser accident and incident registry database comprising:

receiving a search request,
displaying a [radial] radio button interface listing categories,
receiving a selection of a category listed on the [radial] radio button interface,
displaying an interface having multiple fields for accepting search criteria,
receiving search criteria,
suggesting a query name,
sending the search criteria to another component,
receiving a list of matches that satisfy the search criteria from the other component, and
displaying the list; and
wherein the categories include an identifier, overview and analysis, subject, clinical evaluation, visual function exam, laser system, treatments, safety, exposure, and bibliography.
